Enlist E3® Soybeans Distributed by Bayer

## OPEN UP YOUR OPPORTUNITIES

With Alloy™ Soybean Seed.

**A47E35**

**RM 4.7**

<b>Relative Maturity</b>	4.9
<b>Growth Habit</b>	Indeterminate
<b>Flower Color</b>	P
<b>Pubescence Color</b>	GR
<b>Pod Color</b>	TN
<b>Hilum Color</b>	IB
<b>Plant Height</b>	MT
<b>Emergence</b>	1
<b>Standability</b>	4
<b>Soybean Cyst Nematode</b>	Res
<b>PRR Gene</b>	Susc
<b>PRR Field Tolerance</b>	5
<b>Iron Deficiency Chlorosis Tolerance</b>	-
<b>White Mold Tolerance</b>	-
<b>Brown Stem Rot Tolerance</b>	-
<b>Charcoal Rot Tolerance</b>	-
<b>Source of Soybean Cyst Nematode Resistance</b>	PI 88788
<b>Herbicide-Tolerant Trait</b>	Enlist E3®
<b>Sudden Death Syndrome Tolerance</b>	4
<b>Chloride Sensitivity</b>	Exc
<b>Southern Stem Canker Tolerance</b>	3
<b>Frogeye Leaf Spot Tolerance</b>	4
<b>Southern Root-Knot Nematode (<i>M. incognita</i>)</b>	Susc

### Strengths and Management

- 1) 4.7 RM Enlist E3® soybean that is Sulfonylurea (SR) herbicide resistance
- 2) Medium-tall plant with good standability

**Product Use Statement:** Enlist E3® soybeans contain the Enlist E3 trait that provides crop safety for use of labeled over-the-top applications of glyphosate, glufosinate and 2,4-D herbicides featuring Colex-D® technology when applied according to label directions. Following burndown, the only 2,4-D containing herbicide products that may be used with Enlist® crops are products that feature Colex-D technology and are expressly labeled for use on Enlist crops. 2,4-D products that do not contain Colex-D technology are not authorized for use in conjunction with Enlist E3 soybeans. **Warning:** Enlist E3 soybeans are tolerant of over-the-top applications of glyphosate, glufosinate, and 2,4-D. Accidental application of incompatible herbicides to this variety could result in total crop loss. When using 2,4-D herbicides, grower agrees to only use 2,4-D products that contain Colex-D technology authorized for use in conjunction with Enlist E3 soybeans. Always read and follow herbicide label directions prior to use.

YOU MUST SIGN A TECHNOLOGY AGREEMENT, READ THE PRODUCT USE GUIDE PRIOR TO PLANTING AND FOLLOW HERBICIDE RESISTANCE MANAGEMENT (HRM) REQUIREMENTS.

The transgenic soybean event in Enlist E3® soybeans is jointly developed and owned by Corteva Agriscience and M.S. Technologies, L.L.C.™ Enlist, Enlist E3, the Enlist E3 logo and Colex-D are trademarks Corteva Agriscience and its affiliated companies.

Use Restriction Agreement located at: <http://www.mstechseed.com/userrestriction-agreement/>. Performance may vary from location to location and from year to year, as local growing, soil and weather conditions may vary. Growers should evaluate data from multiple locations and years whenever possible and should consider the impacts of these conditions on their growing environment. The recommendation in this material are based upon trial observations and feedback received from a limited number of growers and growing environments. These recommendations should be considered as one reference point and should not be substituted for the professional opinion of agronomists, entomologists or other relevant experts evaluating specific conditions. ©2024 Bayer Group.
